

Preschool at OLV

A great place for young learners

LEARNING THROUGH PLAY

We use a play-based approach, incorporating lessons for early literacy, STEM, religion, music.

We provide an environment that encourages a growth mindset, supports their developmental needs and promotes healthy connections.

We know that fresh air is good for young children so students go outside often.

Our teachers encourage socialization and enjoy watching friendships grow.

FLEXIBILITY

We allow families to choose 3, 4, or 5 school days a week to best fit their schedule.

BUDDIES

Our Buddy Program pairs older students with younger students for different activities - students love this time together. The interaction between the students is very sweet and special.

THE OLV COMMUNITY

Our Family School Association hosts events for parents to make friends as well. Our community is one of our biggest assets!
“This is truly a family environment!”
